# Kaos

Designer: Mauro Lipparini

The Kaos bookshelves, designed by Mauro Lipparini, stem from the minimalist design marked by pure simplicity. Devoid of decorative elements, Kaos frames empty spaces to be filled with books and objects to create a special, intimate place in which to express your personality. The aluminium shelves are

supported by metal uprights featuring small holes, thus allowing you to position the shelves. Kaos can be customized by matching to taste its modules, which come in different sizes. The modular flexibility is enhanced by the possibility to add wooden boxes.
