

BONALDO

Doppler K Sideboard

Designer: Giuseppe Viganò

By applying geometry to the material used, the Doppler K Sideboard catches the eye on account of its notable scenographic strength, able to give character to any type of environment and interior design style. Appearing almost suspended on its linear metal base, the container in painted wood is unique thanks to the cladding of its ceramic doors with their asymmetrical openings.

The asymmetrical opening of the doors is an additional sign of originality. Doppler K Sideboards are available in two different sizes to furnish both the living room and the bedroom. Thanks to the original shaping and sophisticated materials, Doppler K Sideboard pack a huge visual punch.
