Limes

Designer Sergio Bicego
Produzione / Production year: 2002 - Restyling 2025

Descrizione

Limes è stato il divano che con grande anticipo sui tempi, ha parlato di flessibilità e di qualità funzionale alle necessità delle persone.

I suoi pannelli schienale rimovibili e posizionabili su tutti e quattro lati, hanno reso possibile l'inimmaginabile fino a prima.

Ogni elemento si configura in molteplici posizioni, consentendo di cambiare la geografia dello spazio ogni volta se ne senta il bisogno.

Questa idea rivoluzionaria e intelligente ora trova nel restyling una visione estetica più contemporanea: il tondino metallico sollevato da terra diventa più presente e grafico e sottolinea anche il disegno dei pannelli schienale.

I cuscini dello schienale vengono ora offerti in due altezze differenti: per garantire comfort alle spalle è prevista la versione più alta e generosa, mentre la versione bassa assicura un'estetica più rigorosa e da conversazione.

Funzionali piani di appoggio e intrecci sartoriali ne marcano la forte personalità.

Le quote dei disegni che seguono fanno riferimento a basi con i piedi in metallo (h 11 cm). Scegliendo i piedi in metacrilato (h 14 cm)tutte le quote verticali da terra vanno maggiorate di +3 cm.

Struttura - Imbottitura
In legno imbottito con poliuretano espanso 30IP rivestito con velfodera accoppiata a fibra poliestere 150gr/mq. I supporti dei cuscini schiena, del cuscino bracciolo e del bracciolo rullo sono in metallo verniciato e a scelta possono essere rivestiti in tessuto o con fasce di tessuto accoppiato a pressato 300gr/mq.
I cuscini seduta sono imbottiti in poliuretano espanso a quote differenziate (40IP e memory), ricoperto da un materassino in fibra poliestere 100% rivestito con tessuto di cotone 100%.
I cuscini dello schienale e del bracciolo sono imbottiti in fibra poliestere 100% suddivisi in scomparti e rivestiti con tessuto di cotone bianco 100%.
Il bracciolo cilindro è imbottito con poliuretano espanso 30IP e rivestito con fodera in cotone accoppiato a fibra di poliestere 380gr/mq. Il cuscino bracciolo quadrato è imbottito in microfibra siliconata sfioccata 100% poliestere suddivisi in scomparti e rivestiti con tessuto di cotone bianco 100%.
Piedini
In acciaio verniciato h 11 cm o in metacrilato trasparente a sezione rettangolare h 14 cm.
Tavolino
In legno multistrato impiallacciato con bordi a taglio inclinato. L'ancoraggio con la base è garantito da una piastra metallica verniciata dotata di staffe.

Description

The Limes sofa, well ahead of its time, spoke of flexibility and functional quality to people's needs.

Its removable back panels, that can be positioned on all four sides of the sofa base, have made what seemed unimaginable possible.

Each element is configured in multiple positions, allowing for the geography of space to be changed whenever necessary.

This revolutionary and intelligent idea now finds a more contemporary aesthetic vision in its restyling: the metal rod raised from the ground becomes more prominent and graphic as well as emphasizing the design of the back panels.

The back cushions are now offered in two different heights: the higher and more generous version is available to ensure comfort behind the shoulders, while the low version ensures a more rigorous aesthetic to best suit a sitting room environment.

Functional support surfaces and sartorial weaves mark its strong personality.

The dimensions of the following drawings refer to bases with metal feet (h 11 cm). Choosing methacrylate feet (h 14 cm)all height measurements by the floor must be increased by +3 cm

Structure - Padding
In wood padded with polyurethane foam 30IP covered with velfodera coupled to 150gr/sqm polyester fibre. The supports of the back cushions, the arm cushion and the armret roll are in painted metal and can be upholstered in fabric or with padded brided of fabric coupled to pressed strip 300gr/sqm.
Seat cushions are filled with variable-density polyurethane foam (40IP and memory), covered with 100% polyester fibre mattress clothed to 100% cotton fabric.
Back and arm cushions are filled with 100% polyester fiber divided into sections and covered with 100% white cotton fabric.
The roll armrest is filled with polyurethane foam 30IP and covered with cotton lining coupled with polyester fiber 380gr/sqm. The square armrest cushion is in siliconised microfiber unraveled 100% polyester quilted into sections and covered with 100% white cotton fabric.
Feet
In painted steel h 11 cm or in transparent methacrylate with rectangular section h 14 cm.
Low table
In veenered plywood with inclined cutting edges. Anchorage with base is guaranteed through painted metal plate equipped with brackets.
